Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1-7, 10-17, 19-21, and 23-24 are allowed.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 25-26 recites the limitation "DPM driver" and "DPM server". There is insufficient antecedent basis for this limitation in the claim.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 25-26 are rejected under 35 U.S.C. 102(b) as being unpatentable by Isfeld et al.  
(US 5,802,278)

Isfeld et al. disclose a method comprising:

- initiating first and second application sessions; (814-817; fig.24)
- carrying out a setup process between DPM driver and DPM server; (808, 806)

Art Unit: 2143

- receiving a request for a first port number and a first network address from the first application session, the first application session has associated therewith a first destination network address and first destination port number; (col.43, line 63-col.45, line 46)
- receiving a request for a first port number and a first network address from the second application session, the second application session has associated therewith a second destination network address and second destination port number; (col.43, line 63-col.46, line 25)
- reconciling first and second application session requests by dynamically assigning the first network address and the first port number to both the first and second application sessions by differentiating the first and second application sessions by their respective destination network addresses and port numbers; and (col.43, line 63-col.46, line 25)
- using a look-up table indicating an association between the first network address and first port number with the first destination network address and first destination port number as well as with the second destination network address and second destination port number. (table of figs.33 & 34)

#### ***Response to Arguments***

4. Applicant's arguments with respect to claims 25-26 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey C Pwu whose telephone number is 571-272-6798.
